The most complete,
easiest to read catalog in our history . . . .

. . . . is enclosed with this letter.
And in it are . . . .

the most advanced tools manufactured by this industry.

Because the new Wilton Catalog is the most complete book published on clamping tools, we have tried to make it YOUR catalog -- whether you distribute our products, or a competitor's. In it you will find accurate Federal Specification references, a chart of competitive catalog numbers, and a wealth of merchandising ideas.

We invite you to use this catalog regularly, and to request as many more as are needed. Note especially the new line of vises on Page 15, and the new, individually packaged clamps on pages 16-17. New freight terms are shown in both discount sheets.

The convenient ordering form below will help you to check your Wilton stock and re-order the items needed.

Yours very truly,
